## Annex 04: MSATM 2010 Budget Allocation for the Local Development Programme

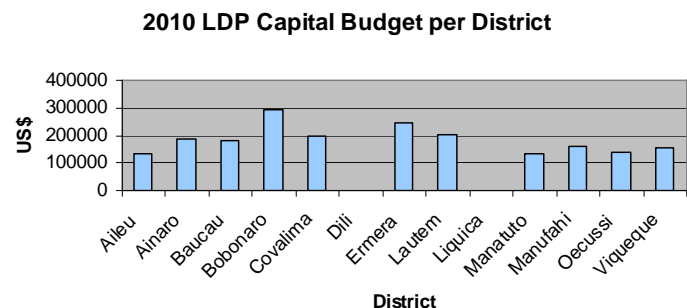

The Local Development Programme (LDP) is a pilot program that is testing decentralization models in order to establish a local governance system that is effective, transparent and responsive to community needs, with the support of UNCDF, UNDP, Norwegian Embassy and Irish Aid.

The LDP pilot was gradually established in order to provide lessons based on practical experience that will help in the national debate about decentralization. In order to test different possibilities for decentralization, the Ministry of State Administration and Territorial Management (MSATM) begun piloting two models of local governance. The first pilot model began in Bobonaro in 2005 and has since expanded to Lautem, Aileu and Manatuto. A second pilot model started in 2008 in the districts of Baucau, Ainaro, Manufahi and Covalima. In 2010, five new districts were incorporated in the LDP as Dili, Ermera, Liquica, Oecussi and Viqueque, totalizing the 13 Districts throughout the territory.

The LDP is implemented through the Local Development Fund (LDF) that is allocated to the local Assemblies, which are composed of Suco Council representatives and district officers. These Assemblies will be able to use this fund to finance activities and small-scale infrastructure projects, such as clinics or health posts, school buildings, water and sanitation, irrigation, that have a direct impact on the communities. In 2009 the LDP implemented 127 projects in the eight pilot districts in various areas and provided a series of training at district level to members of the local Assemblies.
